This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

Security Audit Recommendations

Based on my review of the recent security audit, I recommend the following measures be implemented to align with industry standards and compliance requirements:

Administrative and Managerial Controls:

The following administrative controls should be established to strengthen organizational security posture:

- Enforcement of the **principle of least privilege**
- Development and testing of a **disaster recovery plan**
- Implementation of robust **password policies**
- Establishment of comprehensive **access control policies**
- Clear **separation of duties** across roles and responsibilities

Technical Controls:

To further support compliance and system integrity, the following technical controls should be put in place:

- Deployment of **Intrusion Detection and Prevention Systems (IDS/IPS)**
- Use of strong **encryption** for sensitive data
- Regular and reliable **system backups**
- Implementation of secure **password management** practices
- Ongoing **manual monitoring, maintenance, and intervention** procedures
- Full **PCI DSS compliance** for systems handling payment data
